Mission Statement for Word of God Fellowship Church

Our mission and desire is to impact and enable as many people as possible of all ethnic origins to produce the Life of Jesus Christ to the fullest extent spiritually, physically and intellectually. We are committed and dedicated to empowering every responsible person with the vital principles of God's word. Our desire is that they become as productive as possible spiritually, intellectually and financially, to become home and property owners, own at least two cars in excellent condition, and be the best and at the top of their career, profession, or business.

We are committed and dedicated to empowering marriages and families, including single parent families. We feel that it is important to experience God's wholesome biblical plan and purpose for loving, prosperous, productive and fulfilling family life as ordained by God.

It is our objective to empower and develop in single people the God-given ability to live a productive, holy, prosperous Christ-like life and to enable them to be excellent future husbands, wives, parents and solid citizens that fulfill God's total plan and purpose for their lives.

It is our sincere desire to provide an educational academic environment that will allow children from infants through grade 12 to be nurtured in Christian morals to help them reach the highest levels of achievement by graduation and receive scholarships to provide for their higher education pursuits.

Our vision is to develop people to become effective at winning other people to the kingdom life. We desire everyone to be actively able to do what Acts 8 and Luke 14:15-24 instructs us to do.

We are dedicated to training every believer to be a confident and competent soul winner that wins souls to the Kingdom of God.
